

Dear Store Manager,

As a frequent shopper, I would love to see the Happy Egg Co.'s free range eggs available in your egg case. Currently I have to shop elsewhere to purchase my Happy Eggs and I think you are missing out on a great opportunity.

At the Happy Egg Co., they promote the highest type of welfare. Each hen is given access to eight acres of outdoor pasture. That's the size of SIX football fields. All of their hens are encouraged outside onto the pasture to roam and forage, or even perch in their specially designed "playkits."

Since the Happy Egg Co. allows their "girls" outdoors, living the life a hen should live, their eggs taste the way eggs should! They have the most delicious, deep golden yolks that really stand apart from regular eggs.

Please add the Happy Egg Co.'s free range eggs to your store and help your customers get happy!

Your loyal customer,

Free Range 12 pack
